Abstract

University students violence in mutah, Jordan, and yarmouk University.

Nae'la S. Al - sarayreh

Mu'tah University, 2006

This study as at exploring the nature at students violence in Mu'tah, Jordan, and Yarmouk university A random sample of (500) students from each university was taken A questionnaire was developed and is consisted of demographic in formation and violence scale.

Findings show that sexual harassment is the most prevailing type of violence in the University campus fowled by physical, psychological, and violence ageists property. More over, males competed violence crime more than females. males and more explores to physical and psychology and violence where females were more explores to harassment more the males finally, significant relationship was found between these variables: disagreement, watching violence and practices it inside families, economical factors.

Exemplified by : the family income. It was seen that there was a relation that had a static indication between all of these : scientific and human faculities and the forms of violence practiced by the students inside their universities in addition, a static indication differences between the social kind, the faculity, educational level and violence reasons.
